

Students head to UK's top universities & Apprenticeships

Our Year 13 students are on their way to the UK's top universities after excelling in their A Level exams. The results represent our strongest performance in the post-pandemic era. Our students have demonstrated an outstanding work ethic during their time in the Sixth Form and their results mean that the next stage of their educational journey will be at the UK's top universities, with many also securing much sought after Apprenticeships. This variety of destinations reflects our desire to support each student to follow the pathway that is right for them.

Denbigh's Headteacher, Mr Anthony Steed said: *'We are incredibly proud of our students, whose results are a testament to their resilience, ambition, and commitment to learning. These achievements are also the product of the efforts our outstanding staff, who go above and beyond to support and inspire every young person. We are thrilled to see our students taking the next step towards their future aspirations, whether that be via Higher Education or an Apprenticeship. We know that they will go on to achieve great things as they leave us not only with excellent academic results, but with the skills, character, and confidence to thrive in whatever they choose to do.'*

Our highest achievers and the destinations they are heading to are:

Name	Results	Destination
Cameron Lunn	Chemistry (A*), Maths (A*), Further Maths (A*), Physics (A*)	University of Warwick – Mathematics
William Morrell	Maths (A*), Further Maths (A*), Physics (A*)	Gap Year
Rhoda Watt	Chemistry (A*), Maths (A*), Further Maths (A*), Physics (A*)	University of Warwick - Mathematics
Raayan Beg	Maths (A*), Further Maths (A*), Physics (A*)	Gap Year

Gauree Vijapurkar	Chemistry (A*), Economics (A*), Maths (A*)	University of Cambridge - Economics
Charlie Andell	Maths (A*), Physics (A*), Further Maths (A)	University of Warwick – Mathematics & Physics
Mofe Oludapo	Chemistry (A*), Maths (A*), Physics (A)	University of Warwick – Computer Science
Matthew McKenna	Biology (A*), Chemistry (A*), Psychology (A)	University of Bath – Natural Sciences
