Year 11:	**Curriculum Intent:** Students will consolidate their understanding of all the GCSE Geography topics. Students will have previously completed all of the content for paper 1 (physical), and all the content for paper 2 (human). Therefore, year 11 will focus on diagnosing any gaps and filling these. The rest of the time is spent developing exam skills and their ability to do well on paper 3 (enquiry and fieldwork skills). Students will develop their understanding through re-examining case studies of real places to allow them to build application skills and provide examples to support their answers.					

Unit title: GCSE Geography	**Term 1** **Rivers and PPE Prep**		**Term 2** **DTT**		**Term 3** **Pre-release**	
Topic Titles (in order of delivery)	1. Fieldwork revision 2. Pre-release	1. Resources revision 2. Coasts revision 3. PPE revision	1. Post PPE revision	1. Post PPE revision	1. Pre-release material	1. GCSE Examinations
Key knowledge / Retrieval topics	1. Bournemouth fieldwork revision 2. CMK fieldwork revision 3. Pre release	Resources: food, water energy and sustainable energy future. Coasts: processes, landforms and management	Tectonic hazards Weather hazards Urban world	Economic world Tropical rainforests	Pre-release (unknown topic)	
Understanding / Sequence of delivery	1. Bournemouth fieldwork revision 2. CMK fieldwork revision 3. Pre-release	1. Resources revision 2. Coasts revision 3. PPE revision	1. Climate change 2. Tectonic hazards 3. Weather hazards 4. Urban world	1. Economic world 2. Tropical rainforests 3. Hot deserts	4. Page 2 pre release 5. Page 3 pre release 6. Page 4 pre release 7. Page 5 pre release 8. Page 6 pre release 9. Final enquiry question 10. Revise hazards 11. Final revision	

Assessment
